

Poetry, Prose, & Power

P3

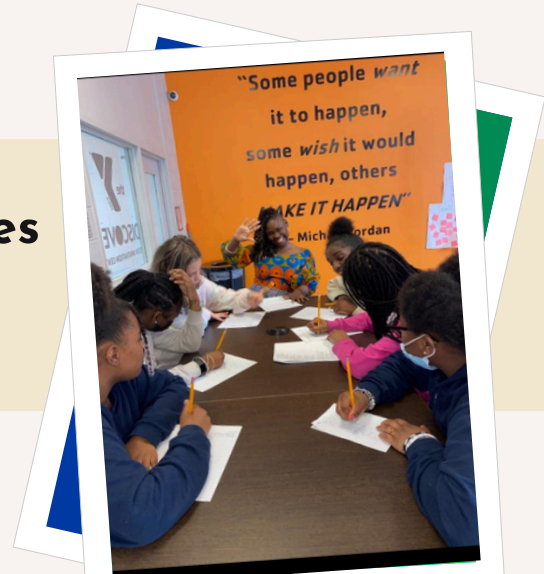

Poetry, Prose & Power (P3) is a healing-centered creative writing and multimedia workshop series designed for middle and high school girls. This self-affirming, culturally responsive program blends art, life coaching, and storytelling as tools for personal growth and collective healing. Drawing from African, African American, Latinx, and Indigenous traditions, P3 provides an expressive space where youth explore identity, resilience, and empowerment through poetry, prose, and performance. Participants use their voices to tell their stories, process emotions, and build community—transforming pain into power and creativity into confidence.

*Just because I did
it in the past, doesn't mean
I'll make the same mistake today.
My mistakes don't define me.
I can choose to create a new reality....
I'm a changed person!
